This book is for all teachers – primary and secondary – and anyone else with an interest in education in the UK today. It's also for school leaders, prospective teachers, ex-teachers and potential returners to the profession.

As a practising teacher of two decades, Emma Kell has drawn on her background in schools and in academic research to examine the experiences of almost 3,700 teachers and education professionals who have generously, and sometimes very bravely, given up their time to share their stories with her.

This thought-provoking and unique book takes a detailed and unflinching look at the crisis in recruitment and retention in UK schools today. It skillfully combines the author's own perspective, real stories from fellow teachers' and a powerful shot of survey data that Emma has carefully collated and interpreted. With concrete, practical suggestions for how to thrive in teaching for leaders, teachers and those aspiring to join the profession, *How to Survive in Teaching* is a love song, a battle cry and a lament all in one – it is both a celebration and a call to action!
