ABSTRACT

PEÑAFLOR, SAMMY JR. F. Swine Production in Aguado, Trece Martires City, Cavite: An Entrepreneurial Development Project. Entrepreneurial Development Project. Bachelor in Agricultural Entrepreneurship. Cavite State University, Indang, Cavite. June 2019: Adviser: Efraim P. Panganiban.

The entrepreneurial project was conducted at Aguado, Trece Martires City, Cavite from December 22, 2018 to April 04, 2019, to help the student gain profit through swine fattening, experience swine raising particularly swine production management and established a profitable swine production enterprise.

For this project, ₱41,852.00 was invested for four hogs and after the production the student earned a total of ₱45,030.00, giving a net income of ₱3,178.00.

Four hogs, with an average initial weight of 16.12 kg attained a final average weight of 97.52 kg. The average daily gain of the hogs was 782.69 g. The hogs consumed an average of 225 kg of feeds which resulted to feed conversion efficiency of 2.76 kg.

In just a short period of time, the entrepreneurial project was concluded profitably and was able to allow the student to experience swine raising particularly the swine production management and gain knowledge in handling an enterprise.

SWINEPRODUCTION IN AGUADO, TRECE MARTIRES CITY, CAVITE: AN ENTREPRENEURIAL DEVELOPMENT PROJECT

Sammy F. Peñaflor Jr.

An entrepreneurial development project report submitted to the faculty of the Department of Agricultural Entrepreneurship, College of Agriculture, Food, Environment and Natural Resources, Cavite State University Indang, Cavite in partial fulfillment of the requirements for the degree of Bachelor in Agricultural Entrepreneurship major in Animal Production with Contribution No. EDP 2019 – 45. Prepared under the supervision of Mr. Efraim P. Panganiban.

INTRODUCTION

Swine production is raising of swine for a profitable production and to improve quality of life. The swine raised by the small holder sector were mainly for additional income, preparation during fiestas and other special occasions and also for their own consumption (Armenina, 2016).

Swine is one potent source of protein in order that human being can meet the demand for not being malnourished (T.L.E, 2000). Despite the crisis facing swine raising, still many people are venturing in this enterprise.

The entrepreneurial project served as an experience for the student of Agricultural Entrepreneurship major in Animal Production in the management practices of swine production enterprise. It also served as the stepping stone for the success of the student in agri-business particularly in swine production enterprise and also to apply the knowledge that they learned in school.
