# TABLE OF CONTENTS

Preface	i
Course Description	ii
Curriculum Map and Program Outcomes	iii

## Chapter I: Brief History in the study of Forensic Ballistics

Learning Outcomes	1
Topics	1
Introduction	2
What is Ballistics ?	3
What is Forensic Ballistics ?	3
What is Forensic ?	4
Origin of the word Ballistics	4
What is Projectile ?	5
First Use of Ballistics in Forensics	5
The Birth of Magnification	6
History of Firearms	8
Fire arms in India	8
Primitive Weapons	8
Roman Candle Tube	8
Summary	9
Review Questions	11

## Chapter II: Branches of Ballistics

Learning Outcomes	15
Topics	15
Introduction	16
What is Ballistics?	17
Branches of Ballistics	18
What is Interior/Internal Ballistics?	18
What is Exterior/External Ballistics?	19
What is Terminal Ballistics ?	20
What is shot Ballistics?	21
What is Wound Ballistics?	21
Forensic Ballistics	22
Damage produced in three ways	22
Laceration and crushing	22
Cavitations	22
Shock wave	23

Wounding power	23
Projectiles mass and velocity	23
Projectiles physical pacifications	24
Characteristics of tissue that has been penetrated	24
Misconceptions About Wound Ballistics	24
Triage and Treatment Decisions	24
What is Forensic Ballistics?	25
Summary	26
Review Questions	28

<b>Chapter III: Classification of Firearms</b>	31
Learning Outcomes	31
Topics	31
Introduction	32
What is the Legal Definition of Firearms ?	32
What is the Technical Definition of Firearms ?	32
What is the other Definition of Firearms ?	33
What is the minor parts of Firearms ?	33
Types of Firearms	33
According to used	33
The general classification of firearms can be based on the following criteria:	34
Level of harm they produce	34
Traditional structure	34
Portability	35
Physical characteristics, size and support	35
Action of weapon:	35
Common types of Firearms	36
Other' types of firearms	39
Craft Production and Rudimentary Arms	40
3D Printed Firearms	41
Unlicensed Copies	42
Replica and Imitation Firearms	43
Deactivated and converted firearms	43
Modular firearm	44
Summary	44
Review Questions	45

<b>Chapter IV: Ammunition/Cartridge</b>	<b>47</b>
Learning Outcomes	47
Topics	47
Introduction	48
What is the Legal and Technical Definition of Ammunition?	48
What is the Other Definition of Ammunitions	48
General types of ammunition	49
Basics of Ammunition	49
How Guns Fire	49
Cartridge	50
Parts of a Cartridge	51
Parts Cartridge	53
Classification of Cartridges	53
According to Rim Diameter	53
Classification of Cartridge	53
According to Powder Charge and Muzzle Velocity	55
Types of Shotgun Cartridge	55
Bullet	55
Two General Types of Bullets	56
Classification of Bullet	57
Different Types of Bullets	57
Bullet types based on construction	57
Bullet Types Based on Purpose	59
Bullet Types Based on Shape	61
Ammunition of different fire arms	61
Different Classification Of Ammunition	63
Classification of Cartridge According to the Location of Primer	63
Classification of Cartridge According To Powder Charge And Muzzle Velocity	64
Parts of Shotgun Cartridge	64
Types of Ammunition	65
According to Use	65
Advantages of Ball Bullets	65
Cartridge case	69
Function of Cartridge Case	69
Parts of Cartridge	70
Parts of a Cartridge Case	70
Types of Cartridge According to Shape	71
Gunpowder	71
Types of Gunpowder	71
Composition and Characteristics Black Powder	73

Black Powder Is A Granular Mixture	74
Serpentine	75
Corning	76
Modern Types	77
Other Types of Gunpowder	78
Sulfur - Free Gunpowder	78
Combustion Characteristics	79
Advantages	80
Disadvantages	80
Transportation	81
Other Uses	81
Primer	82
Composition of a Primer	83
Origin of the Primer	83
Types /Kinds of Primer	83
Parts of the Primer	84
Location of the Primer	86
Marks Found on the Primer	86
Summary	86
Review Questions	88
 <b>Chapter V: Firearms</b>	 93
Learning Outcomes	93
Topics	93
Introduction	94
Definition of Terms	95
Legal Definition of Firearms	95
Legal Definition of Firearm	95
Technical definition of Firearms	95
Other Definition	95
Types of Firearms	96
According to used	96
Major part or components of a firearm	97
Minor parts of a firearm	97
Barrel	97
Projectile	
Two General Classification of Firearm's (According to Gun Barrel Internal Construction)	98
Main Types of Firearms	98
According to Caliber of Projectiles Propelled	98
Types of Firearms	100

According to Mechanical Construction	100
Summary	101
Review Questions	102
 <b>Chapter VI: Characteristics of Firearms</b>	 105
Learning Outcomes	105
Topics	105
Introduction	106
Class Characteristics	106
Class Characteristics of Firearms	107
Individual Characteristics	107
Rifling	108
Standard Types of Rifling's	108
Class and Individual Characteristics	109
Summary	110
Review Questions	112
 <b>Chapter VII: Firearms Identification</b>	 113
Learning Outcomes	113
Topics	113
What is Firearms Identification?	114
Marks found on the fired bullets	114
Land marks	114
Grooves Marks	114
Slippage Marks	114
Shaving Marks	114
Striations Marks-	114
Principle of identification of fired Bullets	114
Marks found on fired "Shells"	115
Firing pin impressions	115
Breech face Marks	115
Extractor Mark	116
Chamber Marks	116
Ejector marks	116
Magazine Lip Mark	117
Examples of Cartridge case comparison examination	117
Principle of identification ( Fired shells)	118
Recovering And Preserving Evidence	118
Marking Of Firearms Evidence	118
Transmittal of Evidence	119

Testing at the Lab	120
Gunshot Residue and Wounds	120
Distant shots	120
Close-range shots	121
Near-Contact Range	121
Loose-contact shots	121
Tight-contact shots	121
Problems in firearms identification.	122
Summary	122
Review Questions	124

## **Chapter VIII: Forensic Ballistics Instruments**

Learning Outcomes	127
Topics	127
Firearms Examination Equipment	128
Identifying A Weapon	128
Investigation	129
Equipments Used In A Ballistics Laboratory	129
Comparison Microscope	129
Bullet Comparator Microscope	130
Stereoscopic Microscopes	132
Comparison Projector	134
Bullet Recovery Box	134
Measuring Projector	135
Verneir Caliper	135
Analytical Balance	136
What makes analytical balances different from other balances?	136
Micrometer	137
Taper Gauges	137
Onoscope	138
Helixometer	138
Shadowgraph	138
Summary	139
Review Questions	140

## **Chapter IX Crime Scene Search**

Learning Outcomes	141
Topics	141
Introduction	142

Establishing A Crime Scene	142
Securing the Scene	142
Protecting Evidence	142
Protecting the Scene	143
Recording and Preserving the Crime Scene	143
Methods of Preserving and Recording Evidence	144
Forensic Photography	145
The Crime Scene Photography	145
How Forensic Photography Is Used	146
Summary	146
Review Questions	148

## **Chapter X: Relevant Jurisprudence** 151

Glossary	157
Person Behind The Development Of Firearms And It's Ammunitions	162
Appendices	173
Republic Act No. 10591 - An act providing for a comprehensive law on firearms and ammunition and providing penalties for violations thereof	173
Republic Act No. 8294	197
Republic Act No. 9516	200
References	208
Answer Keys	210

## ABOUT THE AUTHOR

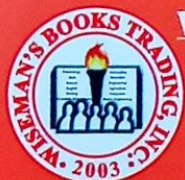

---

### **ARIEL B. BARREDA MSCRIM,LLB.,MCDRM**

A Graduate of Bachelor of Science in Criminology at Philippine College of Criminology, Master of Science and Criminology, Major in Law Enforcement Administration at the University of Saint Anthony, He is also Graduated Bachelor of Laws. Master in Crisis and Disaster Risk Management at Philippine Public Safety College, Presently Enrolled in Doctor of Philosophy in Development Management at Bicol University Daraga Albay. Currently he is connected at Partido State University (PSU) as Assistant Professor IV designated as a Research and Development Coordinator, review coordinator and criminalistics laboratory in-charge in the same University. Former Program Director, Program Adviser in the university. He is a former Dean College of Criminology Solis Institute of Technology, at Bulan Sorsogon, a review lecturer from various colleges in universities in the Philippines. Also concurrently, the Regional Director of the Professional Criminologist association of the Philippines (PCAP). He also Published several Books and also he published paper in international such as Journal of Sustainability education. He is an International, National and Regional research presenter.
