Veterinary Clinical Skills Manual

Edited by **Nichola Coombes** and **Ayona Silva-Fletcher**

Down-to-earth and intensely practical, this book and video package provides step-by-step guidance on the essential clinical skills required by veterinary students before they face clinical situations encountered in the real world of the busy veterinary professional.

- Contains step-by-step illustrations and photographs, complemented by videos of clinical procedures which can be viewed on your desktop, smartphone or tablet.
- Covers the essential key skills that veterinary students need to know.
- Details a whole range of techniques, from surgical, anaesthesia and laboratory through to everyday essential and diagnostic skills, in both farm and companion animals.
- Provides advice on preparing for OSCEs and practical exams.

This book is the go-to manual for an essential grounding in key veterinary clinical skills for all students and educators of veterinary medicine and animal husbandry.
