TABLE OF CONTENTS

Title Page	i
Copyright Page	ii
Foreword	iii
Preface	iv
Table of Contents	vi
Syllabus	viii
 Module Introduction: Teaching Science in the Elementary Grades:	
An Overview	1
Lesson 1: The Science Framework in K to 12	2
Lesson 2: Contents of Elementary Science in a Spiral Progress	10
Lesson 3: The Teaching of Science in the Elementary Grades	17
 Part 1: Chemistry (Matter)	
Module 1: Properties of Matter	23
Lesson 1: Solid, Liquid and Gas (Grade 3)	24
Lesson 2: Grouping Materials Based on Properties (Grade 4)	31
Lesson 3: Physical and Chemical Properties of Matter: Useful and Harmful Materials (Grade 5)	40
Lesson 4: Mixtures and Their Characteristics (Grade 6)	45
Module 2: Changes that Materials Undergo (Grade 3)	52
Lesson 1: Changes that Materials Undergo (Grade 3)	52
Lesson 2: Changes that Materials Undergo: Useful and Harmful (Grade 4)	62
Lesson 3: Changes that Materials Undergo due to Oxygen and Heat (Grade 5)	72
Lesson 4: Separating Mixtures (Grade 6)	79
 Part 2: Biology (Living Things and their Environment)	
Module 1 Parts and Functions of Humans Being	85
Lesson 1: Human Sense Organs (Grade 3)	85
Lesson 2: Human Major Body Organs (Grade 4)	93
Lesson 3: Male and Female Reproductive Systems (Grade 5)	101
Lesson 4: The Human Organ Systems at Work (Grade 6)	107
Module 2: Heredity, Inheritance and Variations	122
Lesson 1: Living Things Reproduce (Grade 3)	122
Lesson 2: Life Cycles of Human, Animals and Plants (Grade 4)	127

TABLE OF CONTENTS

Lesson 3: Reproduction Among Flowering Plants (Grade 5).....	136
Lesson 4: Reproduction in Non-Flowering Plants (Grade 6).....	140
Module 3: Biodiversity and Evolution	146
Lesson 1: Animals and Plants: Parts, Functions and Importance to Humans (Grade 3).....	146
Lesson 2: Plants and Animals in their Habitats (Grade 4).....	154
Lesson 3: Reproductive Structures of Animals and Plants. (Grade 5).....	160
Lesson 4: Common Characteristics of Animals and Plants for Classification (Grade 6).....	164
Module 4: Ecosystem	172
Lesson 1: Living Things Depend on Their Environment for Basic Needs (Grade 3).....	172
Lesson 2: Beneficial and Harmful Interactions Among Living Things (Grade 4).....	176
Lesson 3: Interactions in Estuaries and Intertidal Zones (Grade 5).....	179
Lesson 4: Interactions Among Living Things in Coral Reefs and Tropical Rainforest (Grade 6).....	185
Part 3: Lesson Plan Exemplars in Elementary Science	
Module 1: Lesson Exemplars in Chemistry (Grade 3 to Grade 6)	192
Lesson 1: Lesson Plan in Science 3 Characteristic of Solid.....	192
Lesson 2: Lesson Plan in Science 4 Materials that Absorb Water.....	196
Lesson 3: Lesson Plan in Science 5 Changes that Materials Undergo.....	199
Lesson 4: Lesson Plan in Science 6 Homogenous and Heterogenous Mixtures.....	203
Module 2: Lesson Exemplars in Biology (Grade 3 to Grade 6)	208
Lesson 1: Lesson Plan in Science 3 Parts and Functions of the Eye.....	208
Lesson 2: Lesson Plan in Science 4 Parts and Functions of the Major Organs of Human Body.....	212
Lesson 3: Lesson Plan in Science 5 Parts and Functions of Female Reproductive System.....	217
Lesson 4: Lesson Plan in Science 6 Function of the Major Parts of the Digestive System.....	221
Answer Key	225
Reference	226

Dr. Shirley R. Jusayan

Prof. Lea C. Tingson

Dr. Lourdes N. Morano

Dr. Purita P. Bilbao

About the Authors

Dr. Shirley R. Jusayan is a holder of Bachelor of Science in Chemistry. She started as a laboratory analyst and as a high school master teacher. In 2001 she was awarded as the Most Outstanding Teacher-Secondary Level of the METROBANK Foundation but before that she was awarded the 1999 Regional Dr. Juna Salcedo Jr. Outstanding Teacher for the Secondary Level. After she received the Metrobank award, in 2002, she was a recipient of the Regional Harvest of Excellence Award. Currently she is a faculty of the College of Education of West Visayas State University. She has been commissioned to write several modules and lesson exemplars in Chemistry and a trainer of DepEd, DOST-SEI STAR and CHED. She has finished her doctorate at the West Visayas State University and the Master's degree from the University of the Philippines in the Visayas as a scholar. Further she has acquired her Diploma in Leadership Training and Advanced Teaching Secondary Chemistry at the University of Tasmania, Australia as a PASMEP Fellow.

Lea C. Tingson is currently a faculty of the College of Education, West Visayas State University. Before she taught in higher and advanced education, she was an elementary grades teacher in the Integrated Laboratory School of the same college as a science teacher. She earned her bachelor's degree with specialization in Elementary Science and likewise her Master's Degree in Education with major in Elementary Science from West Visayas State University. Now, she is pursuing a Doctorate Degree in the same institution. She has been a trainer, facilitator and expert in various continuing professional development of teachers. She is a founding member of the National Organization of Science Teachers and Education which gave her the opportunity to attend conferences and seminar-workshop in science and science teaching. In 2009, she co-authored an elementary science book.

Dr. Lourdes N. Morano is a science educator at West Visayas State University. She has taught Biology, research and professional education subjects both in the undergraduate and graduate level. Likewise she had been a teacher of Biology in high school. She has been a Regional Science Teaching Center of the DOST-SEI at West Visayas State University. She has been a trainer, resource person and expert in science in-service training programs. She authored several books and instructional materials of national circulation. She has published and presented several scholarly work related to science education. Dr. Morano earned the Bachelor of Science Education (Biology) from the University of the East, Master's of Teaching Science at the University of the Philippines in Diliman and her Doctor of Education in Curriculum, Instruction and Evaluation from the West Visayas State University. She is a founding and officer of the National Organization of Science Teachers and Educator (NOSTE).

Dr. Purita P. Bilbao as a professional, journeyed from being a classroom science teacher to a science teacher educator. She obtained her Bachelor's degree with specialization in Science at West Visayas State University, Master of Arts in Teaching Science from the University of the Philippines, Diliman and her Doctorate degree in Curriculum, Instruction and Evaluation from West Visayas State University with enrichment at the Virginia Institute of Technology and State University and University of Georgia, USA. Aside from teaching, she engaged herself as a trainer for the DOST-SEI Science In-service trainings for DepEd teachers. She is demonstration teacher, resource person, lecturer in various continuous professional development trainings. She writes instructional and reference materials for science education. As a founding president of the National Organization of Science Teachers and Educators (NOSTE), Dr. Bilbao is an example of a mentor, researcher, writer and forever a teacher.
