Care has been taken to confirm the accuracy of the information presented and to describe generally accepted practices. However, the author(s), editors, and publisher are not responsible for errors or omissions or for any consequences from application of the information in this book and make no warranty, expressed or implied, with respect to the currency, completeness, or accuracy of the contents of the publication. Application of this information in a particular situation remains the professional responsibility of the practitioner; the clinical treatments described and recommended may not be considered absolute and universal recommendations.

The author(s), editors, and publisher have exerted every effort to ensure that drug selection and dosage set forth in this text are in accordance with the current recommendations and practice at the time of publication. However, in view of ongoing research, changes in government regulations, and the constant flow of information relating to drug therapy and drug reactions, the reader is urged to check the package insert for each drug for any change in indications and dosage and for added warnings and precautions. This is particularly important when the recommended agent is a new or infrequently employed drug.

Some drugs and medical devices presented in this publication have U.S. Food and Drug Administration (FDA) clearance for limited use in restricted research settings. It is the responsibility of the health care provider to ascertain the FDA status of each drug or device planned for use in his or her clinical practice.

Unit I: Introduction to Theory 1

1. Philosophy, Science, and Nursing	2
• Melanie McEwen	
Nursing as a Profession	2
Nursing as an Academic Discipline	3
Introduction to Science and Philosophy	5
Science and Philosophical Schools of Thought	7
Nursing Philosophy, Nursing Science, and Philosophy of Science in Nursing	12
Knowledge Development and Nursing Science	12
Research Methodology and Nursing Science	16
2. Overview of Theory in Nursing	23
• Melanie McEwen	
Overview of Theory	24
The Importance of Theory in Nursing	25
Terminology of Theory	26
Historical Overview: Theory Development in Nursing	26
Classification of Theories in Nursing	34
Issues in Theory Development in Nursing	40
3. Concept Development: Clarifying Meaning of Terms	49
• Evelyn M. Wills and Melanie McEwen	
The Concept of "Concept"	50
Concept Analysis/Concept Development	55
Strategies for Concept Analysis and Concept Development	57
4. Theory Development: Structuring Conceptual Relationships in Nursing	72
• Melanie McEwen	
Overview of Theory Development	73
Categorizations of Theory	73
Components of a Theory	79
Theory Development	82
5. Theory Analysis and Evaluation	94
• Melanie McEwen	
Definition and Purpose of Theory Evaluation	95
Historical Overview of Theory Analysis and Evaluation	96
Comparisons of Methods	104
Synthesized Method of Theory Evaluation	106

Unit II: Nursing Theories 115

6. Overview of Grand Nursing Theories 116
 - Evelyn M. Wills
 - Categorization of Conceptual Frameworks and Grand Theories 118
 - Specific Categories of Models and Theories for This Unit 123
 - Analysis Criteria for Grand Nursing Theories 124
 - The Purpose of Critiquing Theories 127
7. Grand Nursing Theories Based on Human Needs 131
 - Evelyn M. Wills
 - Florence Nightingale: Nursing: What It Is and What It Is Not 132
 - Virginia Henderson: The Principles and Practice of Nursing 136
 - Faye G. Abdellah: Patient-Centered Approaches to Nursing 139
 - Dorothea Orem: The Self-Care Deficit Nursing Theory 142
 - Dorothy Johnson: The Behavioral System Model 146
 - Betty Neuman: The Neuman Systems Model 150
8. Grand Nursing Theories Based on Interactive Process 159
 - Evelyn M. Wills
 - Barbara Artinian: The Intersystem Model 160
 - Helen C. Erickson, Evelyn M. Tomlin, and Mary Ann P. Swain: Modeling and Role-Modeling 165
 - Imogene King: King's Conceptual System and Theory of Goal Attainment and Transactional Process 168
 - Sister Callista Roy: The Roy Adaptation Model 172
 - Jean Watson: Human Caring Science, A Theory of Nursing 177
9. Grand Nursing Theories Based on Unitary Process 187
 - Evelyn M. Wills
 - Martha Rogers: The Science of Unitary and Irreducible Human Beings 188
 - Margaret Newman: Health as Expanding Consciousness 193
 - Rosemarie Parse: The Humanbecoming Paradigm 198
10. Introduction to Middle Range Nursing Theories 207
 - Melanie McEwen
 - Purposes of Middle Range Theory 208
 - Characteristics of Middle Range Theory 209
 - Concepts and Relationships for Middle Range Theory 210
 - Categorizing Middle Range Theory 211
 - Development of Middle Range Theory 211
 - Analysis and Evaluation of Middle Range Theory 219
11. Overview of Selected Middle Range Nursing Theories 223
 - Melanie McEwen
 - High Middle Range Theories 224
 - Middle Middle Range Theories 235
 - Low Middle Range Theories 243
12. Evidence-Based Practice and Nursing Theory 253
 - Evelyn M. Wills and Melanie McEwen
 - Overview of Evidence-Based Practice 255
 - Definition and Characteristics of Evidence-Based Practice 256
 - Concerns Related to Evidence-Based Practice in Nursing 256

Evidence-Based Practice and Practice-Based Evidence	258
Promotion of Evidence-Based Practice in Nursing	258
Theory and Evidence-Based Practice	259
Theoretical Models of Evidence-Based Practice	260

Unit III: Shared Theories Used by Nurses 273

13. Theories From the Sociologic Sciences	274
Joan C. Engebretson	
Systems Theories	275
Social Construction and Interaction Theories	280
Exchange Theories, Conflict and Critical Theories	285
Complexity Science, Chaos Theory and Complex Adaptive Systems	292
14. Theories From the Behavioral Sciences	301
Melanie McEwen and Sattaria Smith Dilks	
Psychodynamic Theories	303
Behavioral and Cognitive-Behavioral Theories	309
Humanistic Theories	312
Stress Theories	315
Social Psychology	318
15. Theories From the Biomedical Sciences	331
Melanie McEwen	
Theories and Models of Disease Causation	332
Theories and Principles Related to Physiology and Physical Functioning	340
16. Ethical Theories and Principles	356
Cathy L. Rozmus and Jeffrey P. Spike	
Ethics and Philosophy: An Overview	357
Philosophical Theories of Ethics	358
Bioethical Principles	364
Ethical Decision Making	370
17. Theories, Models, and Frameworks From Leadership and Management	376
Melinda Granger Oberleitner	
Overview of Concepts of Leadership and Management	377
Early Leadership Theories	377
Contemporary Leadership Theories	385
Organizational/Management Theories	387
Motivational Theories	389
Concepts of Power, Empowerment, and Change	390
Problem-Solving and Decision-Making Processes	395
Conflict Management	397
Quality Improvement	397
Evidence-Based Practice	404
18. Learning Theories	409
Evelyn M. Wills and Melanie McEwen	
What Is Learning?	410
What Is Teaching?	411
Categorization of Learning Theories	412

Behavioral Learning Theories	412
Cognitive Learning Theories	415
Learning Styles	426
Principles of Learning	427
Application of Learning Theories in Nursing	428

Unit IV: Application of Theory in Nursing 433

19. Application of Theory in Nursing Practice	434
• Melanie McEwen	
Relationship Between Theory and Practice	435
Theory-Based Nursing Practice	436
The Theory-Practice Gap	437
Situation-Specific/Practice Theories in Nursing	440
Application of Theory in Nursing Practice	442
20. Application of Theory in Nursing Research	452
• Melanie McEwen	
Historical Overview of Research and Theory in Nursing	453
Relationship Between Research and Theory	454
Types of Theory and Corresponding Research	456
How Theory Is Used in Research	459
Nursing and Non-Nursing Theories in Nursing Research	467
Other Issues in Nursing Theory and Nursing Research	468
21. Application of Theory in Nursing Administration and Management	475
• Melinda Granger Oberleitner	
Organizational Design	476
Shared Governance	480
Transformational Leadership in Nursing and in Health Care	482
Patient Care Delivery Models	483
Case Management	489
Disease/Chronic Illness Management	490
Quality Management	493
22. Application of Theory in Nursing Education	501
• Melanie McEwen and Evelyn M. Wills	
Theoretical Issues in Nursing Curricula	502
Theoretical Issues in Nursing Instruction	509
23. Future Issues in Nursing Theory	519
• Melanie McEwen	
Future Issues in Nursing Science	522
Future Issues in Nursing Theory	523
Theoretical Perspectives on Future Issues in Nursing Practice, Research, Administration and Management, and Education	524

Enhance clinical practice with a clear understanding of nursing theory.

Theoretical Basis FOR NURSING

5TH EDITION

Melanie McEwen, Evelyn M. Wills

Access the essential information you need to understand and apply theory in practice, research, education, and administration/management. The most concise and contemporary nursing theory resource available, *Theoretical Basis for Nursing*, 5th Edition, clarifies the application of theory and helps you become a more confident, well-rounded nurse. This acclaimed text is extensively researched and easy to read, giving you an engaging, approachable guide to developing, analyzing, and evaluating theory in your nursing career.

- **NEW Ethical Theories and Principles chapter** familiarizes you with emerging trends in evidence-based, clinically ethical practice.
- **NEW higher education boxes** outline important connections with AACN's "Essentials of Master's Education" and "Essentials of Doctoral Education" to help you advance your nursing career prospects through additional education.
- **Thoroughly revised chapters** include new middle range and situation-specific nursing theories as well as new "shared" theories from non-nursing disciplines.
- **Link to Practice boxes** provide concrete examples of how theory guides nursing practice.
- **Case Studies** help you apply specific content to common scenarios encountered in everyday practice.
- **Learning Activities** test your understanding of key concepts.
- **Chapter Summaries and Key Points** recap important chapter content at a glance.
- **Online Literature Assessment Activity and case studies** challenge you to think critically about textbook content.
