ABSTRACT

LAURIO MAY S., and MATALOG ANGELINE D. Status of Development Programs and Projects in Selected Cities of Cavite. Undergraduate Thesis Bachelor of Science in Development Management. Cavite State University, Indang, Cavite. June 2019. Adviser: Sheryl S. Ersando.

The study was conducted in selected cities namely Bacoor City, Dasmarinas City, and General Trias City in Cavite. The study aimed to: (1) determine the development programs and projects in selected cities of Cavite from year 2015 to 2018; (2) determine the budget allocation and sources of fund for the implementation of development programs and projects in selected cities of Cavite; (3) determine the status of the development programs and projects in selected cities of Cavite.

Secondary data were gathered from selected cities regarding the respective development programs and projects covering the period from 2015-2018. Descriptive method was used in the presentation and discussion of the results.

The study found that there were different development programs that are being implemented in selected cities in Cavite. Bacoor City and Dasmarinas City had the highest number of Development programs and projects being implemented for its constituents. The most common sources of fund for the implementation of the programs in different cities covered by the study were 20 percent Development fund, Municipal Fund, General fund. Among the Development programs, Infrastructure programs got the highest share from all the municipalities covered with an average of P 1,319,517,267.23. Meanwhile, agriculture got the lowest budget allocation from the selected municipalities with the total amount of P 74,856,402.775.

Bacoor City got the highest amount needed in the programs and projects with (P 1,393,905,154.3) followed by the Dasmarinas City with (P 558,792,736.05) and General Trias City with (P 151,043,915.5).

Almost all of the identified programs and projects were still on-going. The amount allocated depended on the nature and coverage of the programs and projects.

An undergraduate thesis manuscript submitted to the faculty of the Department of Development Studies, College of Economics, Management and Development Studies, Cavite State University, Indang, Cavite in partial fulfillment of the requirements for the degree of Bachelor of Science in Development Management with contribution No. _____. Prepared under the supervision of Mrs. Sheryl S. Ersando. *CTMDS - DM - 2019 - 129 J*

INTRODUCTION

Cavite occupies a total land area of 1, 427.06 square kilometers (550.99 sq. mi.) which is approximately 8.72 percent of CALABARZON's (Cavite, Laguna, Batangas, Rizal and Quezon) total land area and 0.48 percent of the total land area of the Philippines. Many companies have established manufacturing plants in numerous industrial parks in the province. There are 31 industrial estates in the province. A total of 973 investors have poured their investments in the 718 existing industrial establishments (Barrera, 2011).

The Province of Cavite is situated at the southern part of Luzon Island, the northernmost island of the three major islands of the Philippines. Cavite is bounded by the Province of Batangas on the south, the Province of Laguna on the east, the Province of Rizal on the northwest, Metro Manila — Manila being the country's capital — and Manila Bay on the north, and the West Philippine Sea on The Province of Cavite was once a mooring place for Chinese Junks that came to trade with settlements around Manila Bay. It was in this hook-shaped peninsula in the southern Luzon coast, where the land was marshy and covered by mangrove trees, when still wary Spanish expeditionary forces landed in year 1571, a few days before they
