CHAPTER 7 Trade and Development II: Neoliberalism and Institutionalism 138

- Emerging Problems with Import Substitution Industrialization 139
- The East Asian Model 142
- Structural Adjustment and the Politics of Reform 152
- Getting Institutions Right 155
Conclusion 159 • Key Terms 160 • Suggestions for Further Reading 160

CHAPTER 8 Multinational Corporations in the Global Economy 161

- Multinational Corporations in the Global Economy 162
- Economic Explanations for Multinational Corporations 167
Locational Advantages 168 • Market Imperfections 169 • Locational Advantages, Market Imperfections, and Multinational Corporations 173
• Multinational Corporations and Host Countries 175 • Conclusion 181
• Key Terms 182 • Suggestions for Further Reading 182

CHAPTER 9 The Politics of Multinational Corporations 183

- Regulating Multinational Corporations 184
Regulating Multinational Corporations in the Developing World 184
• Regulating Multinational Corporations in the Advanced Industrialized Countries 188 • Bargaining with Multinational Corporations 192
- The International Regulation of Multinational Corporations 197
Conclusion 205 • Key Terms 206 • Suggestions for Further Reading 206

CHAPTER 10 The International Monetary System 207

- The Economics of the International Monetary System 208
Exchange-Rate Systems 208 • The Balance of Payments 210 • Balance-of-Payments Adjustment 213
- The Rise and Fall of the Bretton Woods System 217
Creating the Bretton Woods System 217 • Implementing Bretton Woods: From Dollar Shortage to Dollar Glut 220 • The End of Bretton Woods: Crises and Collapse 224 • Conclusion 228 • Key Terms 229 • Suggestions for Further Reading 229

CHAPTER 11 Cooperation, Conflict, and Crisis in the Contemporary International Monetary System 230

- From the Plaza to the Louvre: Conflict and Cooperation During the 1980s 231
- Global Imbalances and the Great Financial Crisis of 2007–2009 239
- Exchange-Rate Cooperation in the European Union 247
Conclusion 253 • Key Terms 254 • Suggestions for Further Reading 254

CHAPTER 12 A Society-Centered Approach to Monetary and Exchange-Rate Policies 255

- Electoral Politics, the Keynesian Revolution, and the Trade-Off between Domestic Autonomy and Exchange-Rate Stability 256
- Society-Based Models of Monetary and Exchange-Rate Politics 261
The Electoral Model of Monetary and Exchange-Rate Politics 263 • The Partisan Model of Monetary and Exchange-Rate Politics 266 • The Sectoral Model of Monetary and Exchange-Rate Politics 270 • Conclusion 276 • Key Term 278 • Suggestions for Further Reading 278

CHAPTER 13 A State-Centered Approach to Monetary and Exchange-Rate Policies 279

- Monetary Policy and Unemployment 280
- The Time-Consistency Problem 288

Commitment Mechanisms 290

Independent Central Banks and Exchange Rates 299

Conclusion 302 • Key Terms 303 • Suggestions for Further Reading 303

CHAPTER 14 Developing Countries and International Finance I: The Latin American Debt Crisis 304

Foreign Capital and Economic Development 305

Commercial Bank Lending and the Latin American Debt Crisis 309

Managing the Debt Crisis 315

The Domestic Politics of Economic Reform 323

Conclusion 326 • Key Terms 327 • Suggestions for Further Reading 327

CHAPTER 15 Developing Countries and International Finance II: The Global Capital Flow Cycle 328

The Asian Financial Crisis 329

Bretton Woods II 340

Currency Wars, Taper Tantrums, and the Global Capital Flow Cycle 344

Conclusion 346 • Key Terms 348 • Suggestions for Further Reading 348

CHAPTER 16 The Achievements of and Challenge to the Global Capitalist Economy 349

The Achievements of the Global Capitalist Economy 350

Globalization and the Politics of Inequality 353

Key Terms 357 • Suggestions for Further Reading 357

Glossary 359

Praise for the Sixth Edition

Oatley's IPE textbook is simply the best of its kind. It is comprehensive, analytically rigorous, and thoughtfully written for students with no previous background in the field. This latest edition contains a variety of fresh material – on Trump, Brexit, China, migration, and other topics – to keep students and instructors excited about the field.

David A. Singer, *Massachusetts Institute of Technology*

With constant reference to both historical cases and current policy concerns, this approachable, accessible new edition of Oatley's text provides both academic entrée to the field and a vivid application to familiar events, empowering students to assess the global economy and its effects theoretically and empirically.

Michael Plouffe, *University College London*

The new sixth edition has been significantly updated for our times, capturing developments of the Trump era and emerging issues like global value chains, the political economy of migration, and the rise of China in global economic governance. Highly recommended!

Soo Yeon Kim, *National University of Singapore*

This is, hands down, the single best textbook I have used for any class in more than two decades of university teaching. ... The result is an invaluable IPE text that brings the students up to the level of the material rather than the reverse.

Strom Thacker, *Union College*

Thomas Oatley succeeds in writing an international political economy text that political science students will find accessible and economics students will find interesting.

Robert G. Blanton, *University of Alabama-Birmingham*

This book's structural-paradigmatic approach trains students and scholars in the kinds of investigative rigor that must be pursued to gain understanding of the global political economy.

Hollis M. France, *College of Charleston*

Oatley's *International Political Economy* ... takes seriously the role that economics plays in defining the interests of political actors but also introduces the student to the operation of institutions that govern international trade and finance.

Paul Rowe, *Trinity Western University*

This outstanding text finds the right balance between theory and context, introducing key developments in world economic history as well as the essential tools necessary to interpret these developments.

Michael Breen, *European University Institute and Dublin City University*

This book is superb: It shows how theories and real-world issues are linked, and provides students with an excellent opportunity to apply theories to pressing questions in international political economy.

Seungjoo Lee, *Chung-Ang University*

A new chapter on the achievements and challenges to the global capitalist economy provides excellent insight into the causes of the recent emergence of anti-globalization sentiments, once again in a way that is both clear and eye-opening for students.

Andrew X. Li, *Central European University*

My students love Oatley's straightforward language, ease of access, strong detail, and wide topical coverage.

Leif Hoffmann, *Lewis-Clark State College*

The society- and state-centered approaches equip students with the theoretical building blocks to understand who wins and who loses from globalization.

James Raymond Vreeland, *Princeton University*

Thomas Oatley is the Corasaniti-Zondorak Chair of International Politics in the Department of Political Science at Tulane University.
