TRIXY ANNE RODIL

An Entrepreneurial Development Project report submitted to the Faculty of the College of Agriculture, Food, Environment and Natural Resources, Cavite State University, Indang, Cavite in partial fulfillment of the requirements for the degree of Bachelor in Agricultural Entrepreneurship major in Animal Production. With Contribution No. EDP 2019-80. Prepared under the supervision of Dr. Magdalena N. Alcantara.

INTRODUCTION

Swine raising is common venture nowadays, not only in farms and well developed urban areas but all over the country. This is one of the phase of livestock production that had achieved advancement in the field of husbandry (Hamilton, 2015).

Swine can be raised either in small or large scale, however not all farmers have realized that swine raising can be a source of income which can accomplish even at the backyard.

Swine raising is proven to be a profitable enterprise. It could be a primary source of income of many Filipino families for some it may be the source of additional income not only to farmers, students and other animal industries. Some are attracted to engage in the business, its profitability makes it a popular business choice.

A successful hog fattening enterprise requires knowledge and skills in the feeding management and marketing techniques.
