Contents

About the Authors xi
Preface xii

Part One Principles of Marine Science

1 The Science of Marine Biology 1

- 1.1 The Science of Marine Biology 2
 - The History of Marine Biology 2
 - Marine Biology Today 7
 - 1.2 The Scientific Method 8
 - Observation: The Currency of Science 9
 - Two Ways of Thinking 10
 - Testing Ideas 11
 - Limitations of the Scientific Method 15
- Observing the Ocean 6
Eye on Science: Carbonate Experiments on the Reef 14
John Steinbeck and Ed Ricketts 16

Interactive Exploration 17

2 The Sea Floor 18

- 2.1 The Water Planet 18
 - The Geography of the Ocean Basins 19
 - The Structure of Planet Earth 19
 - 2.2 The Origin and Structure of the Ocean Basins 21
 - Early Evidence of Continental Drift 21
 - Plate Tectonics 21
 - Earth's Geological History 29
 - 2.3 The Geological Provinces of the Ocean 33
 - Continental Margins 33
 - Deep-Ocean Basins 35
 - The Mid-Ocean Ridge and Hydrothermal Vents 35
- Eye on Science: Life Below the Sea Floor 28
The Hawaiian Islands, Hot Spots, and Mantle Plumes 36

Interactive Exploration 39

3 Chemical and Physical Features of the World Ocean 40

- 3.1 The Waters of the Ocean 40
 - The Unique Nature of Pure Water 41
 - Seawater 43
- 3.2 Ocean Circulation 48
 - Surface Circulation 48
 - Thermohaline Circulation and the Great Ocean Conveyor 52

3.3 Waves and Tides 56

- Waves 56
- Tides 57

Tall Ships and Surface Currents 51
Eye on Science: Larval Transport Near Hydrothermal Vents 54
Waves That Kill 58

Interactive Exploration 63

4 Fundamentals of Biology 64

- 4.1 The Ingredients of Life 65
 - The Building Blocks 65
 - The Fuel of Life 66
 - 4.2 Living Machinery 68
 - Cells and Organelles 69
 - Levels of Organization 70
 - 4.3 Challenges of Life in the Sea 71
 - Salinity 72
 - Temperature 75
 - Surface-to-Volume Ratio 76
 - 4.4 Perpetuating Life 76
 - Modes of Reproduction 77
 - Reproductive Strategies 78
 - 4.5 The Diversity of Life in the Sea 78
 - Natural Selection and Adaptation 78
 - Classifying Living Things 79
- Evolutionary Perspective: From Snack to Servant: How Complex Cells Arose 73
Eye on Science: When Fishes Stepped on Land 80

Interactive Exploration 84

Part Two The Organisms of the Sea

5 The Microbial World 85

- 5.1 Viruses 86
- 5.2 Prokaryotes 86
 - Bacteria 88
 - Archaea 89
 - Prokaryote Metabolism 90
- 5.3 Unicellular Algae 93
 - Diatoms 94
 - Dinoflagellates 95
 - Other Unicellular Algae 96
- 5.4 Protozoans: The Animal-Like Protists 97
 - Foraminiferans 97
 - Radiolarians 98
 - Ciliates 98

5.5 Fungi 98

Evolutionary Perspective: Symbiotic Bacteria—The Essential Guests 90

Tiny Cells, Big Surprises 92

Eye on Science: A Fourth Domain of the Tree of Life? 93

The Bay of Fire 96

Interactive Exploration 101

6 Multicellular Primary Producers: Seaweeds and Plants 102

6.1 Multicellular Algae: The Seaweeds 102

General Structure 103

Photosynthetic Pigments 103

Types of Seaweeds 104

Life History 107

Economic Importance 109

6.2 Flowering Plants 109

Seagrasses 111

Salt-Marsh Plants 113

Mangroves 114

Seaweeds for Gourmets 110

Eye on Science: Marine Algae as Biofuels 112

Interactive Exploration 116

7 Marine Animals Without a Backbone 117

7.1 Sponges 118

7.2 Cnidarians: Radial Symmetry 121

Types of Cnidarians 122

Biology of Cnidarians 124

7.3 Comb Jellies: Radial Symmetry Revisited 124

7.4 Bilaterally Symmetrical Worms 125

Flatworms 126

Ribbon Worms 126

Nematodes 126

Arrow Worms 127

Segmented Worms 128

7.5 Molluscs: The Successful Soft Body 130

Types of Molluscs 131

Biology of Molluscs 135

7.6 Arthropods: The Armored Achievers 137

Crustaceans 138

Biology of Crustaceans 141

Other Marine Arthropods 142

7.7 Lophophorates 143

Bryozoans 143

Phoronids 143

Lamp Shells 143

7.8 Echinoderms: Five-Way Symmetry 143

Types of Echinoderms 144

Biology of Echinoderms 147

7.9 Hemichordates: A "Missing Link"? 148

7.10 Chordates Without a Backbone 148

Tunicates 148

Lancelets 149

The Case of the Killer Cnidarians 125

How to Discover a New Phylum 132

Eye on Science: The Octopus Complex Brain 136

Interactive Exploration 152

8 Marine Fishes 153

8.1 Vertebrates: An Introduction 153

8.2 Types of Fishes 154

Jawless Fishes 155

Cartilaginous Fishes 155

Bony Fishes 158

8.3 Biology of Fishes 160

Body Shape 160

Coloration 160

Locomotion 161

Feeding 162

Digestion 163

Circulatory System 164

Respiratory System 164

Regulation of the Internal Environment 166

Nervous System and Sensory Organs 166

Behavior 168

Reproduction and Life History 172

Shark! 159

Eye on Science: Great White Shark Migrations 170

Evolutionary Perspective: A Fish Called *Latimeria* 173

Interactive Exploration 178

9 Marine Reptiles, Birds, and Mammals 179

9.1 Marine Reptiles 181

Sea Turtles 181

Sea Snakes 181

Other Marine Reptiles 182

Biology of Marine Reptiles 183

9.2 Seabirds 184

Penguins 184

Tubenoses 185

Pelicans and Related Seabirds 185

Gulls and Related Seabirds 187

Shorebirds 187

Biology of Seabirds 187

9.3 Marine Mammals 188

Seals, Sea Lions, and the Walrus 188

Sea Otter, Marine Otter, and Polar Bear 190

Manatees and Dugong 191

Whales, Dolphins, and Porpoises 191

Biology of Marine Mammals 201

The Endangered Sea Turtles 182

Evolutionary Perspective: The Whales That Walked to Sea 196

Eye on Science: Feeding in the Blue Whale 204

How Intelligent Are Cetaceans? 206

Interactive Exploration 214

Part Three Structure and Function of Marine Ecosystems

10 An Introduction to Marine Ecology 215

10.1 The Organization of Communities 216

- How Populations Grow 216
- Ways That Species Interact 219

10.2 Major Marine Lifestyles and Environments 225

10.3 The Flow of Energy and Materials 226

- Trophic Structure 226
- Cycles of Essential Nutrients 232

Eye on Science: Symbiosis on the Seashore 218

Biodiversity: All Creatures Great and Small 220

Cleaning Associations 222

Eye on Science: The Census of Marine Life 224

Interactive Exploration 236

SPECIAL REPORT: Our Changing Planet 237

Rolling the Dice: Climate Change 237

- The Greenhouse: Too Much of a Good Thing? 238
- Betting on Black: CO₂ Through the Roof 238
- What's Happening Now? 240
- What Lies Ahead? 241
- So What? 241

Ocean Acidification: The Other CO₂ Problem 242

Overwhelming the Nitrogen Cycle 243

The No-Zone 245

Stripping the Sea Bare 246

Disappearing Habitats 247

So What Do We Do? 248

Will There Be a Last Straw? 245

For More Information 250

11 Between the Tides 252

11.1 Rocky Shore Intertidal Communities 253

- Exposure at Low Tide 253
- The Power of the Sea 256
- The Battle for Space 258
- Vertical Zonation of Rocky Shores 261

11.2 Soft-Bottom Intertidal Communities 270

- The Shifting Sediments 270
- Living in the Sediment 271

Transplantation, Removal, and Caging Experiments 264

Eye on Science: Sea Star Wasting Disease 269

Interactive Exploration 275

12 Estuaries: Where Rivers Meet the Sea 276

12.1 Origins and Types of Estuaries 276

12.2 Physical Characteristics of Estuaries 278

- Salinity 278

Substrate 279

Other Physical Factors 279

12.3 Estuaries as Ecosystems 279

- Living in an Estuary 279
- Types of Estuarine Communities 281
- Feeding Interactions Among Estuarine Organisms 291

12.4 Human Impact on Estuarine Communities 291

Fiddler on the Mud 284

Eye on Science: Restoration of Salt Marshes 287

Interactive Exploration 294

13 Life on the Continental Shelf 295

13.1 Physical Characteristics of the Subtidal Environment 295

13.2 Soft-Bottom Subtidal Communities 297

- Unvegetated Soft-Bottom Communities 300
- Seagrass Meadows 304
- Human Impact on Seagrasses 306

13.3 Hard-Bottom Subtidal Communities 307

- Rocky Bottoms 307
- Kelp Communities 308

Under the Polar Ice 298

Life in Mud and Sand 304

Eye on Science: *Toxoplasma*: From Cats to Sea Otters 314

Interactive Exploration 316

14 Coral Reefs 317

14.1 The Organisms That Build Reefs 317

- Reef Corals 318
- Other Reef Builders 321
- Conditions for Reef Growth 322

14.2 Kinds of Coral Reefs 326

- Fringing Reefs 326
- Barrier Reefs 329
- Atolls 330

14.3 The Ecology of Coral Reefs 333

- The Trophic Structure of Coral Reefs 333
- Coral Reef Communities 335

Coral Reproduction 325

Eye on Science: Racing to Protect Reef Resilience 327

Deep-Water Coral Communities 332

"Must Have Been Something I Ate" 340

Interactive Exploration 342

15 Life Near the Surface 343

15.1 The Organisms of the Epipelagic 344

- The Plankton: A New Understanding 344
- The Phytoplankton 345
- The Zooplankton 347
- The Nekton 351

15.2 Living in the Epipelagic 352

- Staying Afloat 352
- Predators and Their Prey 355

- 15.3 Epipelagic Food Webs 360
 Trophic Levels and Energy Flow 360
 The Microbial Loop 361
 Patterns of Production 362
 The El Niño–Southern Oscillation 369

Red Tides and Harmful Algal Blooms 350
 Swimming Machines 358
 Eye on Science: Biological Nutrient Pumps 368

Interactive Exploration 372

16 The Ocean Depths 373

- 16.1 The Twilight World 375
 The Animals of the Mesopelagic 375
 Adaptations of Midwater Animals 377
- 16.2 The World of Perpetual Darkness 384
 The Lack of Food 385
 Sex in the Deep Sea 386
 Living Under Pressure 386
- 16.3 The Deep-Ocean Floor 387
 Feeding in the Deep-Sea Benthos 387
 The Nature of Life in the Deep-Sea Benthos 389
 Microbes in the Deep Sea 390

- 16.4 Hot Springs, Cold Seeps, and Dead Bodies 391

The Chambered Nautilus 376
 Biodiversity in the Deep Sea 390
 Eye on Science: *Alvin* Reborn 391

Interactive Exploration 394

Part Four Humans and the Sea

17 Resources from the Sea 395

- 17.1 The Living Resources of the Sea 395
 Food from the Sea 396
 Marine Life as Items of Commerce and Recreation 412
- 17.2 Non-Living Resources from the Sea Floor 413
 Oil and Gas 414
 Ocean Mining 414
- 17.3 Non-Living Resources from Seawater 415
 Energy 415
 Fresh Water 416
 Minerals 417

Of Fish and Seabirds, Fishers and Chickens 405
 Eye on Science: Aquaculture of Bluefin Tunas 409
 Take Two Sponges and Call Me in the Morning 413

Interactive Exploration 418

18 The Impact of Humans on the Marine Environment 419

- 18.1 Modification and Destruction of Habitats 419
 Human Impact on Coral Reefs 420
 Trawling 421
- 18.2 Pollution 422
 Eutrophication 422
 Sewage 422
 Oil 424
 Persistent Toxic Substances 426
 Plastic Waste 429
 Thermal Pollution 430
- 18.3 Threatened and Endangered Species 431
- 18.4 Conserving and Enhancing the Marine Environment 434
 Conservation 434
 Restoration of Habitats 435
 Artificial Reefs 437
- 18.5 Prospects for the Future 438

Eye on Science: Microplastics in the Marine Environment 430
 Biological Invasions: The Uninvited Guests 432
 Sand on the Run, or What to Do with Our Shrinking Beaches 436
 Ten Simple Things You Can Do to Save the Oceans 437

Interactive Exploration 439

- Appendix A Units of Measurement 440
- Appendix B Selected Field Guides and Other References for the Identification of Marine Organisms in North America 441
- Appendix C The World Ocean 442
- Appendix D Major coastal communities and marine protected areas in North America and the Caribbean 444
- Glossary 446
- Index 458

About the Cover

A school of black jacks (*Caranx lugubris*) photographed at a World War II shipwreck off north-eastern Bali, Indonesia. Black jacks are found in tropical waters across the world, with a particular preference for clear, deep water off coral reefs and seamounts. They feed mostly at night, on other fishes, crustaceans, and molluscs. Black jacks are caught for food by locals in the Caribbean and other island groups along its range.

connect[®]

Why Connect?

You want to achieve the best grades possible with the limited time you have to study. McGraw-Hill Connect helps you do just that.

Connect is your personalized digital learning assistant that makes acing exams, earning better grades, managing time, and getting work done easier, quicker and more convenient than ever.

The early bird gets the grade.*

Activate your Connect subscription now!
Students who access Connect sooner do better.

11% – Average increase in student scores
when you connect day 1 vs. day 14 of class

85% of students pass using Connect
compared to **72%** of students not using Connect

*Source: The Impact of Connect on Student Success. McGraw-Hill Connect® Effectiveness Study 2016
