DEVELOPMENT OF ELECTRICAL WIRING BOARD TRAINER USING FIRE ALARM SYSTEM

Undergraduate Design Project
Submitted to the Faculty of the
College of Engineering and Information Technology,
Cavite State University
Indang, Cavite

In partial fulfilment of the requirements for the degree Bachelor of Industrial Technology

> DARWIN N. GATDULA April 2014

ABSTRACT

GATDULA, DARWIN N. Development of Electrical Wiring Board Trainer Using Fire Alarm System. Undergraduate Design Project. Bachelor of Industrial Technology. Cavite State University, Indang, Cavite. Aril 2014. Adviser: Leonardo A. Estero.

The main objective of this project is to construct and evaluate an electrical wiring board trainer using fire alarm system in the Department Of Industrial Technology, Cavite State University, Indang Cavite. With the availability of the materials, the construction of the electrical wiring board trainer using fire alarm system was made possible.

To determine the efficiency of the trainer, an evaluation sheet was administered to twenty one persons. Based on the evaluation conducted, it was found out that the developed electrical wiring board trainer using fire alarm system was recommended to use for school lessons.
