BRIEF CONTENTS

Preface	xi
Acknowledgments of Reviewers and Contributors	xv
Key Features	xvii
Supplements for Students and Instructors	xviii
1 Sampling and Descriptive Statistics	1
2 Probability	48
3 Propagation of Error	164
4 Commonly Used Distributions	200
5 Confidence Intervals	322
6 Hypothesis Testing	400
7 Correlation and Simple Linear Regression	509
8 Multiple Regression	596
9 Factorial Experiments	662
10 Statistical Quality Control	765
Appendix A: Tables	804
Appendix B: Partial Derivatives	829
Appendix C: Bibliography	831
Answers to Odd-Numbered Exercises	834
Index	902

CONTENTS

Preface xi

**Acknowledgments of Reviewers
and Contributors** xv

Key Features xvii

**Supplements for Students and
Instructors** xviii

Chapter 1

Sampling and Descriptive Statistics 1

Introduction 1

1.1 Sampling 3

1.2 Summary Statistics 13

1.3 Graphical Summaries 25

Chapter 2

Probability 48

Introduction 48

2.1 Basic Ideas 48

2.2 Counting Methods 62

2.3 Conditional Probability and
Independence 69

2.4 Random Variables 90

2.5 Linear Functions of Random
Variables 116

2.6 Jointly Distributed Random
Variables 127

Chapter 3

Propagation of Error 164

Introduction 164

3.1 Measurement Error 164

3.2 Linear Combinations of
Measurements 170

3.3 Uncertainties for Functions of One
Measurement 180

3.4 Uncertainties for Functions of Several
Measurements 186

Chapter 4

Commonly Used Distributions 200

Introduction 200

4.1 The Bernoulli Distribution 200

4.2 The Binomial Distribution 203

4.3 The Poisson Distribution 215

4.4 Some Other Discrete
Distributions 230

4.5 The Normal Distribution 241

4.6 The Lognormal Distribution 256

4.7 The Exponential Distribution 262

4.8 Some Other Continuous
Distributions 271

4.9 Some Principles of Point
Estimation 280

4.10 Probability Plots 285

4.11 The Central Limit Theorem 290

4.12 Simulation 302

Chapter 5

Confidence Intervals 322

Introduction 322

5.1 Large-Sample Confidence Intervals
for a Population Mean 323

5.2 Confidence Intervals for
Proportions 338

5.3 Small-Sample Confidence Intervals for
a Population Mean 344

- 5.4** Confidence Intervals for the Difference Between Two Means 354
- 5.5** Confidence Intervals for the Difference Between Two Proportions 358
- 5.6** Small-Sample Confidence Intervals for the Difference Between Two Means 363
- 5.7** Confidence Intervals with Paired Data 370
- 5.8** Confidence Intervals for the Variance and Standard Deviation of a Normal Population 374
- 5.9** Prediction Intervals and Tolerance Intervals 379
- 5.10** Using Simulation to Construct Confidence Intervals 383

Chapter 6

Hypothesis Testing 400

Introduction 400

- 6.1** Large-Sample Tests for a Population Mean 400
- 6.2** Drawing Conclusions from the Results of Hypothesis Tests 409
- 6.3** Tests for a Population Proportion 417
- 6.4** Small-Sample Tests for a Population Mean 422
- 6.5** Large-Sample Tests for the Difference Between Two Means 427
- 6.6** Tests for the Difference Between Two Proportions 434
- 6.7** Small-Sample Tests for the Difference Between Two Means 439
- 6.8** Tests with Paired Data 448
- 6.9** Distribution-Free Tests 454
- 6.10** Tests with Categorical Data 463
- 6.11** Tests for Variances of Normal Populations 473

6.12 Fixed-Level Testing 479

6.13 Power 484

6.14 Multiple Tests 493

6.15 Using Simulation to Perform Hypothesis Tests 497

Chapter 7

Correlation and Simple Linear Regression 509

Introduction 509

7.1 Correlation 509

7.2 The Least-Squares Line 527

7.3 Uncertainties in the Least-Squares Coefficients 543

7.4 Checking Assumptions and Transforming Data 564

Chapter 8

Multiple Regression 596

Introduction 596

8.1 The Multiple Regression Model 596

8.2 Confounding and Collinearity 614

8.3 Model Selection 623

Chapter 9

Factorial Experiments 662

Introduction 662

9.1 One-Factor Experiments 662

9.2 Pairwise Comparisons in One-Factor Experiments 687

9.3 Two-Factor Experiments 700

9.4 Randomized Complete Block Designs 725

9.5 2^p Factorial Experiments 735

Chapter 10**Statistical Quality Control 765**

Introduction 765

10.1 Basic Ideas 765**10.2 Control Charts for Variables 768****10.3 Control Charts for Attributes 788****10.4 The CUSUM Chart 793****10.5 Process Capability 797****Appendix A: Tables 804****Appendix B: Partial Derivatives 829****Appendix C: Bibliography 831****Answers to Odd-Numbered Exercises 834****Index 902**

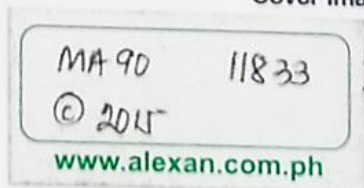

Additional McGraw-Hill International Editions are available in the following subjects:

Accounting	Geology and Mineralogy
Agriculture	Industrial Arts and Vocational Education
Biological Sciences	Management
Business and Industrial Management	Management Information Systems
Chemistry	Marketing
Chemistry and Chemical Engineering	Mathematics
Civil Engineering	Mechanical Engineering
Computer Information Technology (CIT)	Medicine
Decision Science	Meteorology
Economics	Physics
Education	Political Science
Electrical Engineering	Psychology
Electrical Engineering Technology	Sociology
Electronics and Computer Science	Statistics
Finance	Tech and Trade
Geography	

Some ancillaries, including electronic and print components, may not be available to customers outside the United States.
