International Relations and Security 914

Outlook 915

Suggested Readings 915

Notes 917

Index 994

Ellen Lust and her outstanding contributors bring important new coverage to this comprehensive, balanced, and superbly-researched text.

"The Middle East is an excellent, comprehensive book that is well-liked by students. It presents theoretical concepts in political science along with country case studies. This is a definite strength, which allows book sections to be assigned for different courses and at different levels."

—Lindsay J. Benstead
Portland State University

"Lust's The Middle East is one of the best introductory texts on the region. It covers a large amount of material, while addressing current issues and historical processes in an unbiased manner, a core strength of the text."

—Jacqueline Sievert
Western Carolina University

"Lust's The Middle East is an extraordinarily useful text for courses in Middle East politics. The articles in the volume are very well-researched and accessible to students, and as current as can be. I highly recommend it."

—Ricardo Laremont
Binghamton University—
The State University of New York
