ABSTRACT

ANICETO, EUNICE ANNE CUSTODIO. Survey of Containerized Foliage Plants in Selected Localities of Cavite. Undergraduate Thesis, Bachelor of Science in Biology Cavite State University, Indang, Cavite. December 2011. Adviser: Dr. Yolanda A. Ilagan.

This study was conducted mainly to create a list of foliage plants available within the selected localities in the province of Cavite.

Interviews were done and questionnaires were distributed to selected respondents to gather the information. Identification of foliage was done by comparing pictures taken on site with pictures in the books, "Exotica" and "Flora".

Results showed a total of 107 different species of foliage surveyed in 21 stalls around Cavite. Customers included 6,462 to 6,511 walk-in buyers, 158 to 205 landscapers, 15 to 40 students and 6 to 7 hotels/churches per month.
