ABSTRACT

ATIENZA, RAINIEL R. Hog Fattening in Brgy. Kaylaway, Nasugbu, Batangas: An Entrepreneurial Project. Bachelor in Agricultural Entrepreneurship Major in Animal Production. Cavite State University, Indang, Cavite. Adviser: Mariedel L. Autriz, PhD

This project was conducted at Brgy. Kaylaway, Nasugbu, Batangas from December 11, 2018 to March 27, 2019 to attain the project's objective that helped the student to experience the actual hog fattening; attain additional information, knowledge and skills that gave the student the basis to start his own business and gain profit in his future business.

The four fattening hogs were rendered with the proper care and management during the 105 – day rearing period.

At the end of the project, the hogs with an initial average weight of 12.50 ended up weighing an average of 84.25kg with an average daily gain (ADG) of 804.14 grams. The average feed consumption was 206.25 and the feed conversion efficiency was 2.43.

The net income computed was ₱5,614.00 with a total of ₱41,691.00 spent as an expense in project operation, giving a return of investment (ROI) of 13.46%.

HOG FATTENING IN BRGY. KAYLAWAY, NASUGBU, BATANGAS: AN ENTREPRENEURIAL DEVELOPMENT PROJECT

Rainiel R. Atienza

An entrepreneurial development project report submitted to the faculty of the College of Agriculture, Food, Environment and Natural Resources, Cavite State University, Indang Cavite in partial fulfillment of the requirements for the degree of Bachelor in Agricultural Entrepreneurship major in Animal Production. With Contribution No. EDP 2019 - 70. Prepared under the supervision of Dr. Mariedel L. Autriz.

INTRODUCTION

Swine Production is an important industry and is considered as one of the most popular and profitable business enterprise in the field of animal production. The demand pork is high, hence it is considered as one of the most favorite meat of the Filipinos. (BAR, March 2017).

Hog raising in the Philippines has been a profitable business for Filipinos through the decades. Its popularity is evidently seen among backyards of rural families. An average Filipino family usually raises a small number of pigs to support their daily needs. (BD, 2017)

This project was help the entrepreneur know the proper ways of hog raising and improve the skills to develop a good outcome in hog fattening practices. And to gain profit.
