The Book

An Outcome-based Reviewer on Correctional Administration provides students, practitioners, and law enforcement officers a review material to aid them in their subjects and fields amid the fast-growing changes in the realm of criminology. As a product of research and collection of various notes, books, and review materials authored by experts, pioneering criminologists, and practitioners of allied disciplines, it aims to reinforce classroom discussions and review resource materials in the area of correctional administration. Formatted as a multiple-choice question (MCQ)-type reviewer, it serves as a tool to help board exam takers not only obtain excellent scores in their examinations but also enhance their grasp of essential concepts in penology and corrections.

Excello™ is a continuously expanding aggregation of high-quality learning assessments designed to help students master the Philippine curriculum's key skills and provide teachers with easy-to-use test creation tools.
