PART I: SCOPE AND HEALTH BENEFITS OF FRUITS AND VEGETABLES 1

- 1. Worldwide Status and Scope of Processing of Fruits and Vegetables.....3**
Khursheed A. Khan and Abhimannu A. Kalne
- 2. Nutritional Values of Fruits and Vegetables: Macronutrients, Micronutrients and Composition..... 15**
Monica Premi and Khursheed A. Khan
- 3. Health Promoting Compounds: Fruits and Vegetables31**
Prodyut Kumar Paul

PART II: THERMAL TECHNOLOGIES: METHODS AND APPLICATIONS.....	73
4. Ohmic Heating: Thermal Processing of Fruits and Vegetables	75
M. Sivashankari and Akash Pare	
5. Microwave Dielectric Technology: Thermal Processing of Fruits and Vegetables	93
Monica Premi and Khursheed A. Khan	
6. Recent Trends in Drying of Fruits and Vegetables.....	109
Rachna Sehrawat, Onkar A. Babar, Anit Kumar, and Prabhat K. Nema	
7. Applications of Freezing Technology in Fruits and Vegetables	133
Tanya L. Swer, C. Mukhim, Rachna Sehrawat, and Sandip T. Gaikwad	
PART III: NON-THERMAL TECHNOLOGIES METHODS AND APPLICATIONS.....	163
8. High Pressure Processing of Fruits and Vegetables	165
Anit Kumar, Rachna Sehrawat, Tanya L. Swer, and Ashutosh Upadhyay	
9. Use of Ultrasound Technology in Processing of Fruits and Vegetables.....	185
Abhimannu A. Kalne, Khursheed A. Khan, and Chirag Gadi	
10. Irradiation Technology: Processing of Fruits and Vegetables.....	209
Monica Premi and Khursheed A. Khan	
PART IV: PROCESSING METHODS AND APPLICATIONS	227
11. Role of Canning Technology in Preservation of Fruits and Vegetables.....	229
Monica Premi and Khursheed A. Khan	
12. Extrusion Technology for Processing of Fruits and Vegetables: Principle, Methods and Applications.....	255
Sandip T. Gaikwad, Shardul Dabir, Vinti Singla, and Tanya L. Swer	
13. Use of Food Additives in Processing/Preservation of Fruits and Vegetables	275
Onkar A. Babar, Nilesh B. Kardile, Rachna Sehrawat, and Sandip T. Gaikwad	

14. Extraction and Concentration Methods for Bio-Active Components in Fruits and Vegetables.....	301
Somnath Mandal, Prodyut K. Paul, and Nandita Sahana	
15. Processing Technology for Production of Fruits-Based Alcoholic Beverage.....	323
M. B. Patel, S. R. Vyas, and K. R. Trivedi	
PART V: CHALLENGES AND SOLUTIONS: THE INDUSTRY PERSPECTIVE.....	353
16. An Approach in Designing the Processing Plant for Fruits and Vegetables.....	355
Md. Neshat Iqbal and Khursheed A. Khan	
17. Innovative Approach in Waste Management: Fruits and Vegetables.....	371
Kiran Dabas and Khursheed A. Khan	
18. Attitude of Consumers Toward Fruits and Vegetables.....	405
Sandip T. Gaikwad, Anit Kumar, Tanya L. Swer, and Onkar A. Babar	
<i>Glossary of Technical Terms.....</i>	<i>421</i>
<i>Index.....</i>	<i>451</i>

Technological Interventions in the Processing of Fruits and Vegetables

This volume presents a wide selection of the latest concepts in the fast-changing field of processing of fruits and vegetables (FAV). It provides key information on many new and different techniques used for processing of fruits and vegetables while also exploring the pros and cons of the various methods. There is an urgent need to explore and investigate waste in the processing of fruits and vegetables and how different processing technologies can be used most effectively. This volume, in short, conveys the key concepts and role of different technology in processing of fruits and vegetables, keeping mind the special processing requirements of fruits and vegetables, waste issues, nutritional value, and consumer concerns.

ABOUT THE EDITORS

Rachna Sehrawal is affiliated with the Food Engineering Department at the National Institute of Food Technology Entrepreneurship and Management (NIFTEM), Haryana, India. She has in-plant training experience at Britannia Biscuits Pvt. Ltd. and Nestle India, and has worked as a Quality Assurance Executive at Food Coast International, in Jalandhar, India. She has taught at Doon Valley Institute of Engineering & Technology, Haryana, India, and at the National Institute of Food Technology Entrepreneurship and Management (NIFTEM), Kundli, Haryana, India.

Khursheed A. Khan is an Assistant Professor in the Department of Agricultural Engineering at the College of Horticulture, Mandsaur, of Rajmata Vijayaraje Scindia Agriculture University (RVSKVV), Gwalior, India. He has acquired proficiency in the field of postharvest processing through his experience in food industry research, and teaching by working at the national and international level for more than 13 years. He has been awarded a certificate in "Essential HACCP Practices" from The Royal Society for the Promotion of Health, UK.

Megh R. Goyal, PhD, PE, is a Retired Professor in Agricultural and Biomedical Engineering from the General Engineering Department in the College of Engineering at University of Puerto Rico-Mayaguez Campus. He has worked as a Soil Conservation Inspector and as a Research Assistant at Haryana Agricultural University and Ohio State University. In 2005, he was proclaimed as "Father of Irrigation Engineering in Puerto Rico for the twentieth century" by the ASABE, Puerto Rico Section, for his pioneering work. A prolific author and editor, he has written more than 200 journal articles and textbooks and has edited over 50 books.

Prodyut K. Paul, PhD, is an Associate Professor and Head, Pomology and Postharvest Technology, Faculty of Horticulture, Uttar Banga Krishi Viswavidyalaya, Cooch Behar, West Bengal, India. Previously, he served as Associate Professor at the National Institute of Food Technology Entrepreneurship and Management (NIFTEM), Kundli, Haryana, India. He has received many academic distinctions and has been nominated by the Indian Council of Agricultural Research, New Delhi, for international training on non-chemical/non-thermal processing and membrane technology at Washington State University, Pullman.
