This farm practice internship was undertaken at Barangay Lumipa, General Aguinaldo, Cavite to determine the feasibility of growing corn as income generating project of the Student Outreach Agent and the farmer cooperator.

Approximately one hectare field was devoted to the production of grain corn. Majority of the labor inputs was provided by farmer cooperator and student outreach agent and one third of the farm labor was hired for emergency purposes.

Capital inputs for the purchase of materials like seeds and fertilizers was loaned from the DSAC-AEOP Income Generating Project Funds.

At the end of the growing season, the farmer was able to realize a net income of ₱334.90.
